

Carol CISZEK

**Vice President of Worldwide Quality, Food Safety and Scientific & Regulatory Affairs
KRAFT FOODS, USA**

Carol Ciszek is Vice President of Worldwide Quality, Food Safety and Scientific & Regulatory Affairs (QSARA) for Kraft Foods. As worldwide QSARA lead, she has responsibility for 3 main areas:

- Quality including: Quality Strategy, Policy, Auditing and Global Specification System Development and Management.

- Food Safety including: Microbiology, Toxicology and Thermal Processing

- Scientific and Regulatory Affairs including: Scientific evaluation and position development, legislative review and influencing, and Regulatory affairs including Nutrition Applications.

Carol has worked in the food industry for more than 27 years across multiple categories, functions and locations. Prior to taking on her current role, Carol has held previous leadership positions in Manufacturing, R&D, Environmental and Sanitation with experience across North America and internationally. Carol currently serves on the Board for the Global Food Safety Initiative (GFSI).

Carol completed her B.S. in Microbiology at the University of Wisconsin - Lacrosse. She received her Masters in Business Administration from Pepperdine University in Southern California.

KRAFT FOODS

The combination of Kraft Foods and Cadbury creates a global powerhouse. Kraft is the world's second largest food company with annual revenues of \$48 billion. In the U.S., Kraft products are present in more than 99 percent of households. Kraft Foods markets 11 brands with revenues exceeding \$1 billion, including: Kraft, Jacobs, LU, Maxwell House, Cadbury, Trident, Milka, Nabisco and its Oreo brand, Philadelphia, and Oscar Mayer. More than 40 of their brands are at least 100 years old.
